Plan B

- The Ministry of Health has not yet reschedule Plan B[®].
- The delay seems to be related to discussions on whether or not Plan B[®] should receive PharmaCare coverage.
- An answer was expected by the end of August from Suzanne Solven.
- No further communication has been received from the Ministry.

OUTCOME DEVELOPMENT ISSUES

Security for pharmacies providing methadone services

- George Budd, Quality Outcomes Specialist presented a report on security issues:
 - In August 2005 a downtown eastside pharmacy was broken into and drugs were stolen, including methadone and other narcotics.
 - These drugs made their way onto the street and may have contributed to the street drug problem including drug overdoses and deaths.
 - A second, similar incident occurred in August 2006, but no overdose deaths have been reported.
 - Vancouver Police Department contacted the College to express their concern.
 - Since the most recent incident of break and enter, college staff and the registrar met with an officer from Vancouver Police Department and the Deputy Chief License Inspector from the City of Vancouver to discuss any immediate action that could be necessary.
- Three options to address this issue were put forward:
 - 1. No change continue to hold the pharmacy manager responsible for determining the level of security controls required for the security of drugs and confidential records.
 - Develop guidelines or recommendations that more clearly outline the areas that should be considered by a manager developing security plan. These outlines could point out that the street value of the inventory and the location of the pharmacy should play into the decision-making.
 - 3. Provide very specific and detailed requirements that must be met by pharmacies. Develop a time-line for implementation, and have Quality Outcomes Specialists review all pharmacies to ensure the specific requirements are being complied with.

It was moved, seconded and carried:

The Community Practice Advisory Committee, headed by George Budd, would develop a recommendation to council.

NEW POLICY DEVELOPMENT

Pharmacy Technician Update

- The Pharmacy Technician Steering Committee has been identified and the first draft of the business case analysis has been circulated to the members for review and recommendations.
- A second draft will be prepared with the recommendations and circulated to the committee by October 6.
- The final draft of the business case analysis will be ready for consideration by council for the November 24 council meeting.
